

Lisandro Fernando

Digital Petroleum Engineer | Reservoir & Production Engineering | Data & Cloud Engineering

Monterrey, Mexico | +52 8180546960 | lisandrusfernandus@hotmail.com

PROFESSIONAL SUMMARY

Digital Petroleum Engineer with 8+ years of experience combining reservoir engineering, production analysis, and modern data-driven solutions. Proven capability in pressure transient analysis, decline curve analysis, and reservoir characterization using real well data. Skilled in leveraging Python, cloud technologies, and automation to enhance reservoir analysis, data quality, and engineering decision-making.

CORE SKILLS

Reservoir Engineering: PTA (Saphir), DCA (Arps), Reservoir Characterization, Material Balance

Production Engineering: Forecasting, Reserves Estimation, Well Performance Analysis

Technical: Python, SQL, Data Engineering, AWS, Azure, CI/CD

Advanced: Log-log derivative analysis, flow regime identification, well test interpretation

PROFESSIONAL EXPERIENCE

- Reservoir Engineering Analyst / Consultant
 - Performed pressure transient analysis (PTA) using Saphir on real well data
 - Estimated permeability (~127 md), skin (~+6.9), and reservoir pressure (~9330 psia)
 - Interpreted log-log derivative plots to identify flow regimes
 - Applied decline curve analysis for production forecasting and reserves estimation
- Cloud & Software Automation Engineer – Accenture (Present)
 - Designed automated frameworks improving reliability and reducing defects
 - Developed CI/CD pipelines for efficient software delivery
 - Built Python tools for data validation and processing
 - Managed cloud environments in AWS and Azure

PROJECTS

- Pressure Transient Analysis – Chipilín Well (Saphir Study)
 - Performed full PTA using Saphir on real well test data
 - Estimated permeability, skin, and reservoir pressure
- Oil Well Data Analysis & Forecasting System
 - Applied decline curve models to forecast production and estimate reserves

EDUCATION

Postgraduate Diploma in Petroleum Engineering (2026)

Master's Degree – Prairie View A&M University

Bachelor's Degree – Tianjin University of Science & Technology

CERTIFICATIONS

Google Project Management, Software Project Management, Accenture QA Engineering
